

bibliotheca staffConnect™ count 100

A simple, reliable patron-counter for smaller libraries

staffConnect count 100 is a network-based patron-counter that calculated library visitors via a laser beam and reflector. Integrated with smartadmin, libraries can easily see visitor statistics and are better able to make data-driven strategic decisions based on foot traffic. Statistics are automatically transferred and logged into smartadmin, where updated figures can be accessed via a web browser.

Mounted to a door frame, staffConnect count 100's laser beam reflects across the open entry and counts traffic through the doorway. In addition to being simple to setup and monitor, staffConnect count 100 is also reliable. It stores patron-count totals for up to 24 hours if the system goes offline or the library network is down.

bibliotheca staffConnect count 100

Specifications: staffConnect count 100

Connection:	Network (RJ 45)
Software:	Windows XP / Vista / 7 / 10
Hardware:	Class 2 laser
Power:	External 12 volt power supply included
